

Residential properties are billed a
\$4.25 flat rate fee

which appears monthly on City utility statements.

Business properties are billed through a tiered fee system that is based on the number of

ERU's

located on each property.

How Do Our Residential Service Fees Compare to Our Neighbors?

Salisbury	\$4.25
Concord	\$4.30
Kannapolis	\$4.40
Winston Salem	\$4.50
Landis	\$5.00
Archdale	\$5.00
Charlotte	\$8.22

Data from the UNC Institute of Government - Environmental Finance Center

ERU = Equivalent Residential Unit

One ERU = 2,500 square feet of impervious surface

Impervious Surface = Material that does not easily absorb water

Stormwater Service Fees Fund the Following:

- Maintenance and Installation of System
- Education
- Environmental Protection
- Plan Review
- Mapping System Infrastructure

The City of Salisbury Stormwater Utility and associated service fee are a result of an unfunded federal mandate that raised the standards for local municipalities regarding stormwater removal. The Stormwater Utility in Salisbury, established in July 2012, will overhaul the stormwater infrastructure within City limits and create cleaner water for our community in an effort to preserve the overall health of our physical environment.
