North Carolina

December 18, 2025

RE: 010-2026 Fisher Street Bridge Removal, Project # 25-0174.225

## NOTICE

To: Potential Bidders of the Fisher Street Bridge Removal

Subject: Suspension of the Bidding Process

The execution of a Construction Agreement between the City and both railroad owners is required to proceed with the approvals outlined in the Special Provisions of this bid package and the removal of the Fisher Street Bridge. The review and execution of the Construction Agreement is expected to take additional time. With an indefinite and potentially extended timeline for execution of the Construction Agreement, the City sees the potential for a negative effect on this contract if awarded.

Therefore, the City is suspending the bidding process until the Construction Agreement is executed. Once the agreement is executed, the City will schedule a second pre-bid meeting and establish a new bid date to resume the contracting process for the Fisher Street Bridge removal.
