CHANGES TO THE AGENDA

Mayor Alexander noted the following change to the Agenda:

Add — Council go into a closed session concerning a personnel matter and as allowed by NCGS143-318.11(a)(6).

ELECTRIC VEHICLE CHARGING STATION

City Engineer Wendy Brindle explained Duke Energy will provide grant funding for electric vehicle charging stations. She added the grants target State and local government entities, and the City submitted an application.

Ms. Brindle noted the City applied for a grant that would reimburse $50,000 per entity. She pointed out North Carolina has experienced a 19% increase in electric vehicle registration in the last year, and Rowan County has experienced a 26% increase. She commented charging times range from 7 minutes to 281 minutes.
Ms. Brindle stated staff evaluated potential sites and determined the City-owned parking lot at Gateway Park would provide the most convenient location for use and maintenance. She added it will cost the City approximately $3,200 annually to maintain the electric vehicle charging station. She explained installation would cost approximately $30,400, and Duke Energy would reimburse the City $27,200. She noted the City would incur $3,200 in cost during the first year which includes a four-year maintenance contract and a $560 annual service fee.

Mayor Pro Tem Blackwell asked how the $27,200 City reimbursement relates to the $50,000 grant tier. Ms. Brindle explained if the City is awarded a $50,000 grant and it uses $27,200, it could use the balance to install an additional electric vehicle charging station at another location.

Councillmember Miller noted a citizen came forward approximately two years ago and was willing to pay for electric charging stations if the City would absorb the electricity costs. Ms. Brindle indicated she was unaware of the request. Mayor Alexander stated the proposal would not work with the grant request. She added staff will work with the citizen regarding future electric vehicle charging stations at other locations throughout the City.

Mr. Miller asked if the total cost includes electricity or only the cost of the unit. Ms. Brindle explained the cost is for the unit, and she added the electricity would be metered and billed separately.

Thereupon, Mr. Miller made a motion to authorize the installation of a two port Electric Vehicle Charging Station at Gateway Park. Mr. Hardin seconded the motion. Messrs. Hardin, and Miller, and Mses. Alexander and Blackwell voted AYE. (4-0)

Ms. Brindle commented the grant will be awarded in December.

ADVANCED METERING INFRASTRUCTURE LARGE METER INSTALLATION

Salisbury-Rowan Utilities (SRU) Director Jim Behmer explained at a previous meeting Council voted to proceed with the Advanced Metering Infrastructure Implementation Project. He noted the item before Council includes large meter installation. He stated 15 Request for Proposals were sent out, and staff received four responses. He added the low bid was $301,344 submitted by Vanguard Utility Service.

Mr. Behmer indicated the next step would be to bid the small meter installation, and he provided background on the Advanced Metering Infrastructure Implementation Project.

Councillmember Miller asked if the proposal is within budget. Mr. Behmer agreed.

Thereupon, Mr. Miller made a motion to award a contract to Vanguard Utility Service in the amount of $301,344 for the Advance Metering Project large meter installation. Ms. Blackwell seconded the motion. Messrs. Hardin, and Miller, and Mses. Alexander and Blackwell voted AYE. (4-0)
DOG PARK UPDATE

Parks and Recreation Director Nick Aceves updated Council on the proposed dog park project, which was originally designed for the Civic Center. He noted after reviewing other sites, and the County expressing a willingness to partner on the project, staff considered Forest Hills Park. He indicated a group that included Councilmember Hardin, City and County staff, members of the Parks and Recreation Advisory Board, and Dog Paws met onsite to discuss traffic, parking, and noise. He reviewed additional parking options, and he noted parking could be available across the street adjacent to Memorial Park Cemetery.

Mr. Aceves noted the Parks and Recreation Advisory Board voted unanimously to approve the site, although there were concerns regarding traffic and speed. He indicated staff assured the Board it would do all it can to alleviate speed concerns in the area. He requested Council consider holding a public hearing November 15, 2016 to receive public comment regarding the dog park and its proposed site.

Mr. Hardin pointed out the project would be a partnership with the County, and the County would absorb the majority of the costs. Parks and Recreation Maintenance Manager Stephen Brown reviewed the budget for the dog park, which was originally estimated at $70,000 for Phases I and II. He pointed out the original design was slightly less than one acre, and the new design is over 1.5 acres. He added the $40,000 contribution from the County along with the funds raised for the dog park should cover fencing, a gate system, some of the proposed trees, and water and Fibrant service.

Mr. Aceves noted there are approximately 18 parking spaces on one side of Grove Street. He commented the group discussed moving the parking spaces to the other side of the street which is closer to the dog park. He pointed out there is no sidewalk on that side of the street, and it has a slope that would require additional grading.

Mr. Hardin stated the group also considered speed enforcement, and it concluded barriers may be needed to slow traffic. Mr. Brown pointed out there is a painted cross walk at the location. Mr. Aceves noted staff could consider more aggressive traffic control.

Mayor Alexander asked if upgraded parking costs were included in the proposed budget. Mr. Aceves noted parking upgrades have not been budgeted. Mr. Miller suggested a gravel lot, and he noted additional funding for the parking lot could be considered later. Mr. Brown pointed out there are 40 on-street parking spaces between the Greenway and Parkview Circle.

Mayor Pro Tem Blackwell asked if citizens could legally park on the grass until the parking lot is completed. Mr. Aceves noted staff will work on all parking options.

Thereupon, Mr. Hardin made a motion to set a public hearing for November 15, 2016 to receive comments on the location of the proposed dog park. Mr. Miller seconded the motion. Messrs. Hardin, and Miller, and Mses. Alexander and Blackwell voted AYE. (4-0)
