DISCUSSION ON SKATEBOARD ISSUES

City Manager David Treme reported to Council that he has received numerous questions and inquiries from churches, downtown businesses, and citizens regarding skateboard issues. He stated that he feels a survey should be completed to discuss the impact of skateboarders downtown, as it relates to property, and to hold a public hearing during December. Mr. Treme informed Council that the University of North Carolina has a graduate program with students who may be able to assist the City with the survey. He stated that with Council's permission he will proceed and return with a plan of action. He added that he wants to ensure a thorough study is done on the issue and to include all people who have interests in the issue.

Councilman Burgin stated he feels the issue of the skateboarders and property owners should have been managed by being courteous to each other, but apparently this has not been the case. He noted that he felt Council had no choice but to proceed in determining its options. He added that, in the meantime, if skateboarders practiced the act of being courteous the issue may be able to be solved with the least amount of bureaucracy.

Mayor Kluttz asked if the date should be set for the public hearing. Mr. Treme commented that it may take time to develop the survey but noted that the public hearing could be held with the survey work continuing after the public hearing. By consensus Council agreed to set the public hearing for December 7, 2004.

VOLUNTARY ANNEXATION - PARKDALE HEIGHTS

2.036 acres - 200-300 Blocks of American Drive

(a) Mr. Patrick Ritchie, Engineer, noted that Parkdale Heights is a residential subdivision located on American Drive. As a part of the subdivision process the developer has asked for the voluntary annexation for a portion of the subdivision which is located outside of the City limits. This area is approximately 2.036 acres. Mr. Ritchie indicated that the effective date of the annexation will be December 31, 2004.

(b) Mayor Kluttz convened a public hearing, after due notice and advertisement thereof, to consider voluntary annexation of a 2.036 acre portion of Parkdale Heights, 200-300 blocks of American Drive.

Since no one was present to speak for or against the voluntary annexation, Mayor Kluttz closed the public hearing.

(c) Thereupon, Mr. Woodson made a motion to annex the 2.036 acres of Parkdale Heights on American Drive with an effective date of December 31, 2004 into the City. Mr. Burgin seconded the motion. Messrs. Burgin, Kennedy, Lewis, Woodson, and Ms. Kluttz voted AYE. (5-0)

AN ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF SALISBURY, NORTH CAROLINA, 2.036 ACRES TO INCLUDE PARKDALE HEIGHTS.

(The above ordinance is recorded in full in Ordinance Book No. 20, Miscellaneous, at Page No. 169, and is known as Ordinance No. 2004-79.)
Z-15A-04 - City of Salisbury Planning Board
East Innes Street near Lee Street, Downtown East Phase

(a) Ms. Janet Gapen, Planner II, informed Council this is the final phase of a Planning Board initiative to rezone portions of downtown from B-6 to B-5. She noted that this area is located in the vicinity of East Innes Street, Lee Street, Depot Street and East Council Street. She noted that all of the area is currently zoned B-6. Ms. Gapen explained that the Planning Board initiated the rezonings because they felt there are a number of uses in the current B-6 zoning that are incompatible with a downtown environment. She added that under the new code rewrite the current B-6 District will convert to a Highway Business type of district, and B-5 will convert to downtown mixed-use.

Ms. Gapen stated that at the Planning Board courtesy hearing concerns were raised about the affects of the rezoning on neighboring residential properties. She noted that B-5 greatly reduces the setbacks and with any new development or expansion landscape requirements will be required. Ms. Gapen informed Council that the Planning Board recommended approval of this rezoning.

(b) Mayor Klutzz convened a public hearing, after due notice and advertisement thereof, to consider zoning map amendment Z-15A-04 City of Salisbury Planning Board, located in the general vicinity of East Innes Street near Lee Street, Downtown East Phase, from B-6 to B-5.

Mr. Brian Miller, Planning Board Member and Committee Chair, reviewed the justification for the initiation of this rezoning. He noted that there has been pressure in the downtown area to rezone to B-5 in order to allow property owners more options relative to how they develop their lot. He explained that when the committee looked at the case history of the parcels involved in this initiative there were several properties which had been down-zoned from B-6 to B-5. Mr. Miller stated that when the Land Development Oversight Committee reviewed the current zoning classifications and how they are mapped, they felt that this area is not part of a corridor but part of the downtown and they felt it was appropriate to define it as such.

Ms. Ann Lyles, 409 East Bank Street, stated that she is a member of the Board of Trustees for Historic Salisbury Foundation and Chairman of their Preservation Action Committee. She indicated that they have a concern for two (2) houses located on South Lee Street and noted that they realize the houses are located within the Historic District and will be afforded some protection by this fact. She stated that she realizes that in the future the houses will most likely be used for business and added that she feels it appropriate to maintain the houses. She commented that she feels they will make a nice transition from the business community to the residential community.

Mr. Leo Wallace, 508 South Fulton Street, stated that he is in favor of the rezoning with one exception, the 300 block of East Council Street. Mr. Wallace reviewed the history of the area, including what is located there now, and concluded that the area has traditionally been wholesale and light manufacturing and should not be changed from B-6.

Since no one else was present to speak for or against the proposed rezoning, Mayor Klutzz closed the public hearing.

Mayor Pro Tem Woodson asked staff if the tire company in the 300 block of East Council Street will become non-conforming. It was confirmed that several of the businesses will become non-conforming.

Ms. Gapen clarified that there is a heating and air contractor within the area and this type of use is allowed as a general contract. She noted that the tire and re-treading business is first allowed in M-1 so it is non-conforming under the existing B-6 zoning. She stated that there was an auto repair business in the area that closed, and since the one hundred eighty (180) day period has passed, this particular use would be non-conforming and not allowed in B-5. She noted that the recycling business is also non-conforming in the existing zoning and explained that if a use continues in operation or ceases but resumes operation within the one hundred eighty (180) day period it can continue as a non-conforming use.

Mr. Wallace read a list of the uses that will be non-conforming in B-5 zoning. Mr. Lewis noted that the list had been modified and read the list of uses allowed in B-6 that will not be allowed in B-5. He indicated that there are one hundred twenty-eight (128) permitted uses in B-6 and one hundred one (101) in B-5.

Mr. Lewis commented that he could understand the need for B-6 zoning beside railroad tracks in the past and questioned how many of today's uses still require rail. He stated that the existing tenants who become non-conforming will be able to exist for as long as they wish to operate their business, but added that Council needs to look toward the future and how Council would like to see the area developed. He commented that while the rezoning reduces some of the allowed uses he feels it brings protection to the properties where redevelopment is considered because the uses deemed inappropriate for downtown will not become their neighbor.

Councilman Burgin stated that the structures in this area are currently built to the edge of the property and if the property should be damaged they would have to be reconstructed twenty-five (25) feet from the property lines as required in the current B-6 zoning. He noted that B-5 will allow construction to the property line. He commented that the nature of the block in question has changed and he feels it is time the zoning reflects the change as well.

Mr. Woodson commented that some of the excluded uses seemed restrictive and pointed out Florists Shops as an excluded use. Mr. Lewis clarified that Florists are permitted with restrictions in both B-6 and B-5 and the use would not change. Mr. Burgin commented that the bulk of the list of excluded uses are not uses desirable for a downtown area.

Councilman Kennedy stated that he supports the rezoning because it will not close any current business. He added that he feels the change will be helpful because it will be consistent with what is being done in other parts of the City.
Mr. Woodson commented that he would hate to exclude light manufacturing from some of the buildings in the area. Ms. Gapen stated that in reviewing the draft version of the proposed new code the proposed DMX (Downtown District) includes light manufacturing.

(c) Thereupon, Mr. Burgin made a motion that the property presented in Z-15A-04 be rezoned from B-6 to B-5 as recommended by the Planning Board. Mr. Kennedy seconded the motion. Messrs. Burgin, Kennedy, Lewis, Woodson, and Ms. Kluttz voted AYE (5-0)

(The above ordinance is recorded in full in Ordinance Book No. 20, Zoning & Planning, at Page Nos. 170-171, and is known as Ordinance No. 2004-80.)

ZONING MAP AMENDMENT - Z-15B-04 - CITY OF SALISBURY PLANNING BOARD

Z-15B-04 - City of Salisbury Planning Board
West Innes Street near Jackson Street, Downtown West Phase

(a) Ms. Janet Gapen, Planner II, informed Council that this is the final phase of rezoning from B-6 to B-5 in quadrants of downtown. She explained that there are sixteen (16) parcels in the area and all are currently zoned B-6. She reviewed the location of the Historic District Overlay and noted that a concern has been raised regarding historic structures. The concern is that the structures will not be protected and have a greater risk of being razed in order to take advantage of the no set-back requirements. She explained that structures located in the Historic District are protected by a delay of three hundred sixty-five (365) days before demolition can begin. She pointed out a structure on Fulton Street, where Bijoux is currently located, and noted that it is outside of the Historic Overlay, but within the area to be converted to B-5. Ms. Gapen stated that staff felt the most likely scenario would be a use not desirable to the neighborhood located in the structure, rather than the structure being demolished.

Ms. Gapen informed Council that there are no non-conforming uses in the area proposed for rezoning.

(b) Mayor Kluttz convened a public hearing, after due notice and advertisement thereof, to consider zoning map amendment Z-15B-04 City of Salisbury Planning Board located in the general vicinity of West Innes Street near Jackson Street, Downtown West Phase, from B-6 to B-5.

Ms. Ann Lyles, 409 East Bank Street, stated that the Preservation Action Committee is concerned about the house where Bijoux is located and feel it would be a shame to lose this structure. She noted that they determined that a different zoning classification would not provide additional protection to the structure and asked that this house be afforded some protection. She noted that the house is not in the Historic District or Overlay but is architecturally significant.

There being no one else present to speak for or against the proposed rezoning, Mayor Kluttz closed the public hearing.

(c) Thereupon, Mr. Kennedy made a motion to amend zoning map Z-15B-04 City of Salisbury Planning Board located in the general vicinity of West Innes Street near Jackson Street, Downtown West Phase, from B-6 to B-5. Mr. Burgin seconded the motion. Messrs. Burgin, Kennedy, Lewis, Woodson, and Ms. Kluttz voted AYE (5-0)

(The above ordinance is recorded in full in Ordinance Book No. 20, Zoning & Planning, at Page Nos. 172-173, and is known as Ordinance No. 2004-81.)

Councilman Burgin indicated that it seemed the best solution for protection of the house where Bijoux is located would be to “pan-handle” the Historic District. He asked if Council would agree to ask the Planning Board to study this issue. It was noted that the Historic Preservation Commission (HPC) would be the appropriate board, and by Consensus Council agreed to ask the HPC to study this issue.

PUBLIC HEARING - 2004 LOCAL LAW ENFORCEMENT BLOCK GRANT

(a) Ms. Barbara Fuller, Fiscal Analyst, informed Council that the City has been awarded a grant through the United States Department of Justice Local Law Enforcement Block Grant in the amount of $16,466. She explained that before the funds can be received a public hearing is required for public input on the use of the funds. Ms. Fuller stated that if no public input is received the Police Department will use the funds for their Youth at Risk...
Mayor Kluttz convened a public hearing, after due notice and advertisement thereof, concerning the 2004 Local Law Enforcement Block Grant. Since no one was present to speak to Council concerning the Local Law Enforcement Block Grant, Mayor Kluttz closed the public hearing.

He noted that the amendment will change the appeal process to include the Zoning Board of Adjustment, and will clarify responsibility for property owners for the front of their homes and businesses.

Thereupon, Mr. Burgin made a motion to amend the Ordinance for Nuisance Abatement, Chapter 14, Section 14-4 and 14-8 as presented. Mr. Lewis seconded the motion. Messrs. Burgin, Kennedy, Lewis, Woodson, and Ms. Kluttz voted AYE. (5-0)
