**WEST END TRANSFORMATION PLAN**

Community Planning Services Director Janet Gapen updated Council on the West End Transformation Plan. She explained the West End Transformation Plan is the result of a partnership between the City and the Salisbury Housing Authority and was funded by a 2010 United States Housing and Urban Development (HUD) Choice Neighborhood Planning Grant.

Ms. Gapen explained the West End Transformation Plan took two years to complete. She reviewed the planning process:

- Steering committee appointed by Council
- Working groups
- Public forums
- Focus groups
- Two-day Design Charrette
- Community partnerships

Ms. Gapen noted staff worked to meet the needs of the community by including residents in the planning process. She pointed out the plan builds on existing West End neighborhood opportunities:

- Anchor institutions such as Livingstone College
- Resident leaders
- Faith community
- Salisbury Greenway
- Salisbury Transit
- Redevelopment potential of existing buildings that are vacant or underutilized

Ms. Gapen explained the Choice Neighborhood Planning Grant is meant to be holistic and is built around three core goals: people, housing and the neighborhood. She noted staff listened to residents and studied successful holistic neighborhood rehabilitation from around the country. She explained the key components must work together:

- Housing and livability of the neighborhood
  - Rebuild Civic Park
  - Single family rehabilitation
  - Mixed-income
  - Community Center
  - Parks sidewalks and greenway
• Cradle-to-college education  
  o Partners in learning  
  o New Head Start classrooms  
  o Boys and Girls Club  
  o College partners – youth and adult programs  
• Health and wellness  
  o Community Health Center  
  o Wellness programs  
  o Access to healthy food

Ms. Gapen noted the total community commitment is $19,537,046. She indicated the Civic Park redevelopment includes:

• Mixed income  
• 170 units  
• Awarded $7 million low income housing tax credits  
• Phase I construction to begin the first quarter of 2014

Ms. Gapen reviewed the summary of progress:

DEMOLITION – 504 NORTH MAIN STREET

Community Planning Services Director Janet Gapen addressed Council regarding demolition of a structure located at 504 North Main Street in the Downtown Local Historic District. She reviewed a map of the area and pointed out the structure’s location at the intersection of Cemetery and North Main Streets. She explained Council must approve the demolition permit due to the property’s location in the Downtown Local Historic District. She explained the structure is not in the National Historic District, and it does not qualify for historic rehabilitation tax credits.

Ms. Gapen noted the Historic Preservation Commission (HPC) issued a Certificate of Appropriateness for demolition. She displayed photographs of the property and indicated the structure was built in 1910. She explained the property has experienced changes to the interior and exterior that have diminished the historic integrity of the building. She also pointed out extensive water damage to the interior of the building.

Ms. Gapen indicated the HPC issued a Certificate of Appropriateness because of the state of the building and its location in an area that includes newer constructions and vacant lots. She reviewed the factors to be taken into consideration in approving the demolition permit:

- Location of the structure within the historic district
- Its state of repair
- Architectural significance
- The overall impact of demolition of the structure on the historic district

Councilmember Miller clarified the permit for demolition does not require a public hearing. Ms. Gapen stated that is correct.

Councilmember Alexander pointed out the request comes to Council from the HPC who approved the request.

Mr. Miller asked if the request was initiated by the property owner. Ms. Gapen verified that it was. He indicated he supports the request due to the lack of contributing significance of the structure, the state of the building, and the request being initiated by the property owner.

Thereupon, Mr. Miller made a motion to issue a permit for demolition of the structure located at 504 North Main Street in accordance with Section 7-77 of the Salisbury City Code. Mr. Kennedy seconded the motion. Messrs. Kennedy, Miller, and Woodson, and Ms. Alexander and Blackwell voted AYE. (5-0)
ALL-WAY STOPS AT THE INTERSECTION OF ELLIS AND MONROE STREETS
AND ELLIS AND HORAH STREETS

City Engineer Wendy Brindle addressed Council regarding the intersections of Ellis and Monroe Streets and Ellis and Horah Streets. She displayed a map of the area and indicated on September 3, 2013 staff requested Council's consent to remove two traffic signals. She stated Council approved a 60-day evaluation that began September 20, 2013 and included site observations, accident files, and public comments.

Ms. Brindle explained due to site restrictions staff implemented all-way stop conditions instead of a through street at both intersections. She stated early site observations noted a driver tendency to run the stop signs at both intersections, but she indicated as the public became aware of the new traffic pattern, the signs were more effective.

Ms. Brindle indicated staff did not receive any negative comments and there were no accidents at the intersections during the evaluation. She stated staff recommends permanently establishing the all-way stop conditions and removing the traffic signals at both intersections.

Mayor Woodson asked about the length of the evaluation. Ms. Brindle stated Council approved a 60-day evaluation, but the actual assessment was over 90 days.

Councilmember Alexander stated she supports the request. She pointed out she lives near the intersections and the all-way stops seem to slow traffic along Ellis Street.

Mayor Woodson stated an all-way stop should reduce accidents since all drivers are required to stop at the intersection.

Mayor Pro Tem Blackwell thanked Ms. Brindle for her attention to the neighborhood and its traffic issues. She stated she supports establishing the all-way stop conditions. She noted Ms. Brindle is working with the North Carolina Department of Transportation (NCDOT) regarding the traffic signal cabinet at the intersection of Fulton and Monroe Streets.

Councilmember Miller asked if staff has received feedback regarding the upgraded traffic signals at the intersection of Fulton and Monroe Streets. Ms. Brindle stated staff is monitoring the intersection but has not received any feedback from citizens. She stated the new traffic signals are larger and visible from a greater distance. Mr. Miller asked if there had been additional accidents at this intersection. Ms. Brindle stated there have not been any accidents since the new signals were installed.

Thereupon, Ms. Alexander made a motion to adopt an Ordinance amending Section 13-326, Article X, Chapter 13, of the Code of the City of Salisbury, relating to traffic control signal lights. Mr. Miller seconded the motion. Messrs. Kennedy, Miller, and Woodson, and Ms. Alexander and Blackwell voted AYE. (5-0)
