Staff Recommendation

During the discussion, Ms. Vanek displayed the spreadsheet showing eligible amounts.

In reply to a question regarding grant history and whether or not that history plays into consideration of a current application, Ms. Vanek said that applicants can only receive a grant every other year. History is included to ensure applicants apply when eligible; it shouldn't be a factor in the Committee's decision.

After a discussion of methodology and different approaches to awarding funds, the Committee arranged applicants in order of point value and assigned amounts based on criteria. Since \$20,000 is available, the committee then adjusted the remainder among the applicants. They decided to award the lower income properties their full eligible amount.
